I'm out Monday and Tuesday of next week. Copying Darlene so she can adjust upcoming meetings. Jeff, we can get you the current slides, and copying Neil to keep him in the loop while I'm out.

Hi Jeff

I am not sure if I will be able to be at that meeting. Something came up and I may be out of the office that entire week. I will let Lonnie know

Thuy

I saw your name on these emails with the IOPP. Are you going to do a presentation? If we both do one I was thinking you would talk about the lab and I would do the more general one like I have been doing.

Is Kimberly also involved in this?

Also, I noticed we could do these in person (its in Sterling VA I think). Have you thought about that?

Thx

Jeff

Hi Lonnie,

One issue comes to mind with the variant situation. I think we need to check to see if we are even allowed to do in-person meetings even with all the precautions.

Will get back to you as soon as possible.

Thx

Jeff Dawson

Hello,
Our committee has reached a good registration number for our fall meeting and we will be meeting in person as discussed below.

We have a spot on our agenda for an update from EPA on the current state of your PFAS research with respect to fluorination.

Our meeting is set as described below.

The meeting is as at:

IoPP HeadQuarters
12930 Worldgate Dr., Suite 200
Herndon, VA 20170

The time is: 1:30-3:00pm on Tuesday the 21st of September.

Does this work for you?

The meeting will be with masks and distancing.

Thank you,
Lonnie Jaycox

Greetings.

Well we had some complications to our meeting plans due to our conference hotel in Alexandria being closed to turn into condos.

I think this is an effect of the Amazon headquarters project. It is the second time we have been kicked out of a hotel for this reason in Alex.

We have managed to put together the meeting in a new space:

IoPP HeadQuarters
12930 Worldgate Dr., Suite 200
Herndon, VA 20170

Yes, our organizational mothership stepped in to the rescue.

I have an agenda slot for an EPA presentation/Q&A on Tuesday, September 21, 2021 from 1:30pm-3:00pm set aside for this topic.

Jeff, is this location and time suitable for you?

Thank you both for your time and patience while we sorted this out.

Hi Lonnie

How are you doing?

It was great chatting with you regarding the different fluorination processes and levels. It really helps me understand more on how PFAS could be formed through fluorination.

I would like to introduce to you Jeff Dawson, Science Advisor for the U.S. EPA, Office of Chemical Safety and Pollution Prevention. Jeff will be in a better position to talk to you about policies and non-analytical science regarding PFAS on HDPE containers.

Regards

Thuy

Thank you for responding.

I would be glad to speak with you at 11:00 am eastern.

I am in the central time zone.

Should I call you at the number below; or should I send a meeting invitation on something like Teams?

You could also call me at either number listed below.

Again, thank you for taking your time for us.

Good afternoon

My name is Thuy and I am the BC at the Analytical Chemistry Branch lab of OPP. Our lab did the testing of the fluorinated HDPE containers

Is it possible for us to chat so I can understand what you want us to present at your meeting ? I am available tomorrow Thursday May 27 from 11 -noon and 1-2PM ET. I will be then be on leave and won't return to the office until June 7th. As of today I am available all day Monday June 7th and Thursday June 10th 9:00AM-1PM

Please let me know

Thanks

Thuy

Mr. Messina,

My name is Lonnie Jaycox and I am on the executive committee of the IoPP Chemical Packaging Committee.

This is an industry organization that meets in the Washington DC area (Alexandria) every fall to discuss issues of importance to the chemical packaging community.

This is a technical committee of IoPP and is not a lobbying organization. We exist solely to enhance the technical capabilities of packaging engineers in the chemical industry in technical and regulatory aspects of our jobs.

Website here:

<https://www.iopp.org/i4a/pages/index.cfm?pageid=3032>

During the pandemic we were incapable of meeting in person.

However, our fall meeting is on for September 20-22 at the Holiday Inn Hotel and Suites, Old Town Alexandria.

I am the committee chair that is tasked with bringing in SMEs to address pertinent topics.

The committee would like to have a speaker who could address the current understanding of the situation regarding PFAS content in packaging and the use of fluorination treatment as a barrier to non-polar solvents in industrial packagings.

Is there a speaker from US EPA who could provide an update to our committee during our meeting?

Thank you for your time,

Lonnie Jaycox
